Enhancements

Membership/ Employees/ Accounts Payable

- **Added Support for Cincinnati Bell to the Cell Phone Carrier List**

Use Case: Previously unavailable, Cincinnati Bell can now be used as an option in the Cell Phone Carrier List.

Bug Fixes

- Fixed an issue with "Add Room" in guest room reservation dashboard not calculating tax or service charge after picking an assigned room and rate category.
- Fixed an issue with the guest room dashboard crashing when attempting to add a named guest multiple times to a dashboard using quick add.
- Fixed an issue with Create Memorized Invoice checkbox on vendor invoice form not always creating a memorized invoice under certain conditions.
- Fixed an issue with edit Vendor Invoice, edit Item Receipt, and edit Purchase Order forms not selecting all text in the cell when tabbing through the grid.
- Fixed an issue with an error printing the End of Shift Report from POS.

- Fixed an issue with NACHA file generation.
- Fixed an issue with a currency format on Income Statement Consolidated by Category Drill Down report.
