# **G** 11.21.16 Releases

### User Guide - Table of Contents

#### **Enhancements**

Club Intelligence - All Dashboards

General - User Interface Controls

Point of Sale (POS)

Interfaces

Credit Card Processor - Shift 4

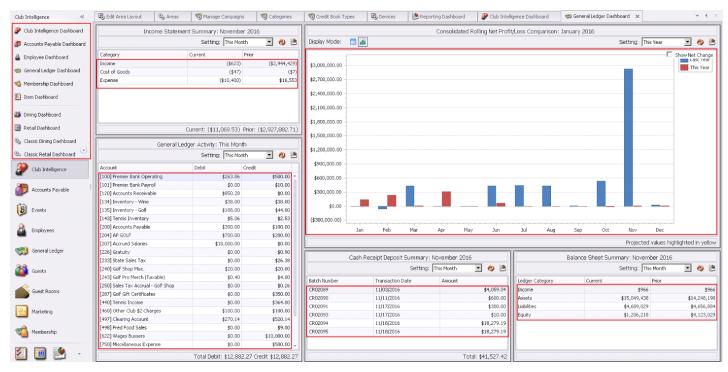

Bug Fixes

## Enhancements

#### Club Intelligence - All Dashboards

• Updated all Dashboards to use the new grid and chart control User Interfaces.

<u>Use Case</u>: Improved UX when viewing/utilizing Dashboards.

### General - User Interface Controls

• Updated all legacy checkboxes, labels, combo boxes, color pickers and date pickers to use the new standard User Interface controls.

Use Case: Improved UX utilizing Interface controls.

## Point of Sale (POS)

#### Interfaces

• Added support for a new settlement integration using B4Checkin to close a POS ticket to an Oracle/Micro folio.

<u>Use Case</u>: This behind the scenes functionality allows clients to further integrate their online reservations with Clubessential POS, and Oracle/Micro.

#### **Credit Card Processor - Shift 4**

• Added support for Shift4 Credit Card processing in POS for both Retail and F&B modes. <u>Use Case</u>: This enhancement allows Clients to now utilize Shift 4 as their credit card processor.

## **Bug Fixes**

- Fixed an issue where club users were seeing duplicate zero balance expired credit books in a member profile.
- Fixed an issue where multi-select was not working when scrolling on the tee time tab.
- Fixed an issue where the Quick Add button was not working properly in the Print Statement Wizard when selecting a Marketing Template.
- Fixed an issue when entering date values in the the invoice date control that was requiring mouse usage.
- Fixed an issue where Purchase Orders were being improperly flagged as complete when a user would delete a line from the PO in the Item Receipt grid.
- Fixed an issue where a reciprocal member charge was not reflecting the quantity entered on the AP invoice.
- Fixed an issue where a proxy member from the Tee Sheet was getting a blank ticket generated when using the Member Charge All button.
- Fixed an issue with the Guest Room occupancy report that was including deleted rooms.
- Fixed an issue with the inventory transaction history report that was including inventory adjustments for the day after the end date.
