

01.29.18 Website Release Notes

User Guide - Table of Contents

[Enhancements](#)

[Mobile App - Navigation](#)

[Reservations - Member Lookup](#)

[Bug Fixes](#)

Enhancements

Mobile App - Navigation

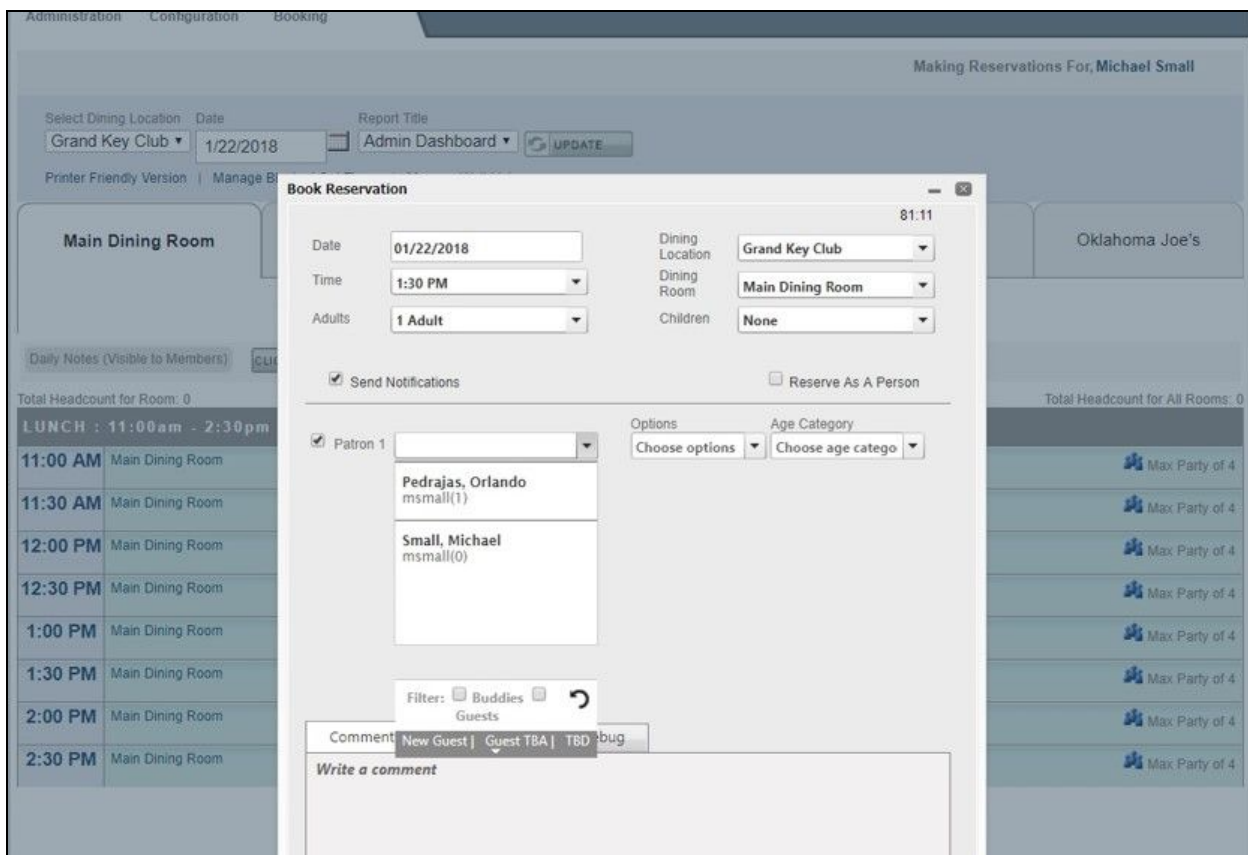

- As a Club Admin, I would like the Mobile App top navigation to be hidden when the Mobile Menu is being displayed on the Mobile App.

Use Case: Previously, the top navigation was visible on the Mobile App. Now, when the Mobile Menu link is tapped, the top navigation will be hidden.

Reservations - Member Lookup

- As a Club Admin, I would like to restrict the member lookup on the dining reservation booking window so members can only see and select family members.

Use Case: Previously, Members would be able see all other Members when booking a dining reservation. Now, Club Admins have the capability to turn on/off the setting for a Family only Member view when booking.

Calendar Integration	
Integration Default Query Path	<input type="text" value="p=dynamicmodule&pageid=407593&ssid=334559"/>
Mobile Default Query Path	<input type="text" value="p=DynamicModule&pageid=407593&ssid=334559"/>

Enable member booking lookup to only show family members?	<input checked="" type="checkbox"/>

Bug Fixes

- Fixed an issue with the Login page presenting unusual behavior preventing users from logging in.
- Fixed an issue with Tee Times Guest TBA Type resetting on Edit.
