

# PayCloud v3.3 - 9.16.19 Release

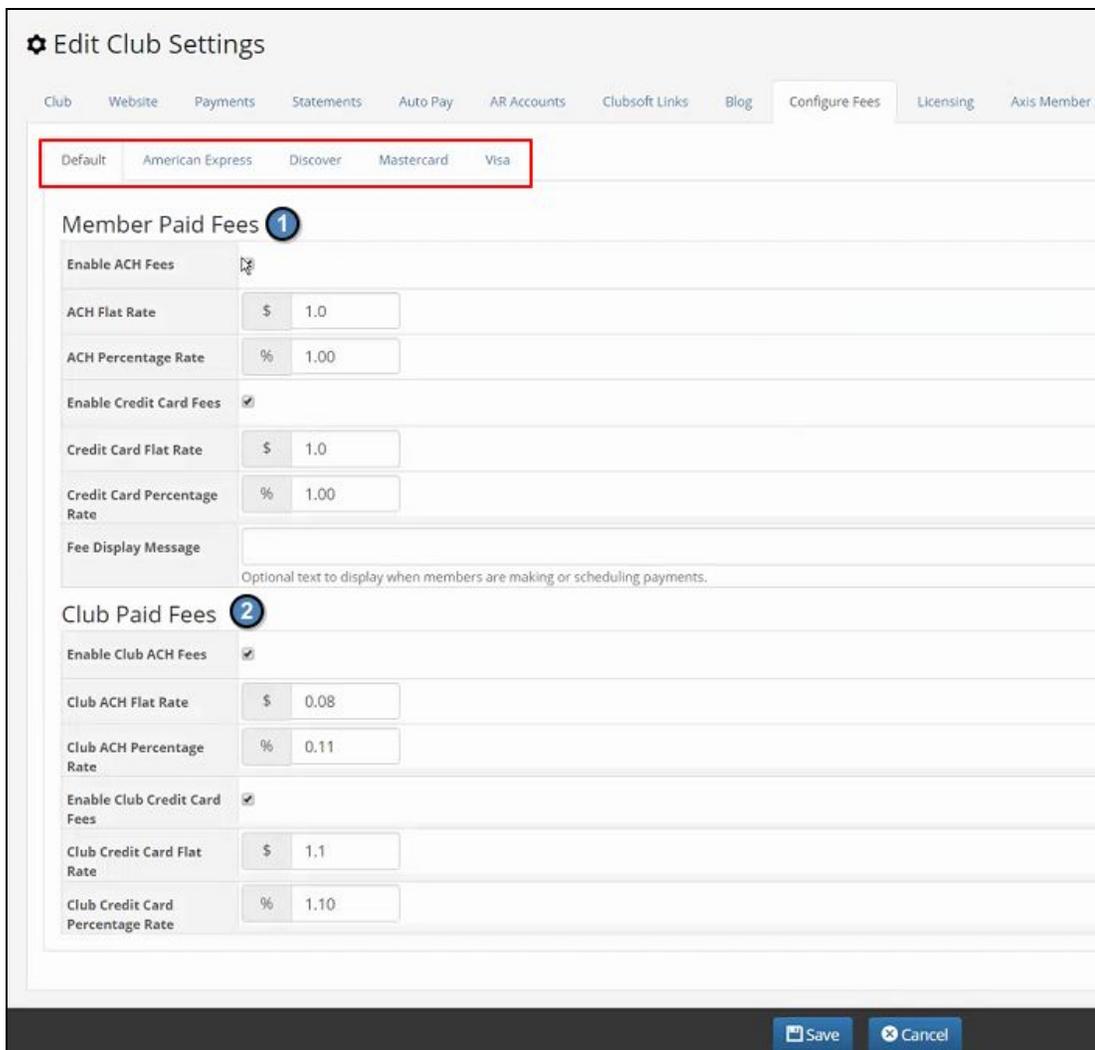

## Enhancements

### CE Payments

- **Allow card brand specific club and member fee configuration in PayCloud.**

Use Case: Enhanced fee calculation and configuration methods to allow separate rates by credit card brand. Visa, Mastercard, American Express and Discover now have separate configuration tabs to enable custom fee profiles, including a Default fee settings tab.

The settings menu allows for Fee adjustments and Fee Display Messages by an Admin for Member Paid Fees (1) and Club Paid Fees (2).

The screenshot displays the 'Edit Club Settings' interface. At the top, there is a navigation bar with tabs for Club, Website, Payments, Statements, Auto Pay, AR Accounts, Clubsoft Links, Blog, Configure Fees, Licensing, and Axis Member S. Below this, a sub-navigation bar highlights five tabs: Default, American Express, Discover, Mastercard, and Visa. The 'Default' tab is selected. The main content area is divided into two sections: 'Member Paid Fees' (marked with a circled '1') and 'Club Paid Fees' (marked with a circled '2').
