

9.26.19 Release Notes

Enhancements

Website - New Email Editor

- **Admins now have the ability to delete template categories within the New Email Editor Template Manager.**

Use Case: Site admins can now delete template categories. This can only be done if no templates are assigned to the category being deleted.

- **Admins now have the ability to save Emojis and other Unicode characters in the New Email Editor email templates.**

Use Case: New Email Editor templates may now contain Unicode characters such as symbols or emojis.

Bug Fixes

- Fixed an issue where certain Members appeared twice in the Member selection drop-down list, and should only appear once.
- Fixed an issue with a page error on Mobile when editing Tee Times for Clubs with multiple resource dropdowns.
- Fixed a sizing issue with the Axis Editor caused by a recent update to the Google Chrome Browser.
- Fixed an email send issue with Clients who have third-party accounting Roster Sync setups.
- Fixed an issue with secured document caching.

- Fixed an issue with Integrations (syncing of data from the website to the CRM) for some CRM users where data was not flowing into the CRM as it should.
