

6.29.20 Axis Release Notes

Enhancements

- **Added “Save As New” option in within the Schedule Editor for Tee Times, Courts, and Dining.**

Use Case: From within the Schedule editor for Tee Times, Courts, and Dining, admins can now clone existing schedules via the Save As New option. This allows for the creation of new schedules without starting from scratch.

- **Added two new fonts to the New Email Editor.**

Use Case: Two new fonts, Barlow Light and Rufina, are now available for use within the new email editor.

Other Features/Bug Fixes

- Fixed an issue that prevented members from booking a pool reservation while another member was editing their own reservation at the same time.
- Fixed an issue that prevented a member’s transportation preference from being set properly when booking a tee time via a mobile device.
- Fixed an issue that resulted in a tee time failing over into a block time under certain circumstances.
