# Enhancements

## CE Payments

- **Service Fee Agreement on AutoDraft Enrollment**

Use Case: Added a Service Fee agreement that will display to Members upon enrolling their account in Admin initiated PayCloud AutoDrafts. Clubs using Fee Pass Through will now require members to agree to Service Fees before enrolling an account in Auto Draft.

- **Settlement Report - Load More Results Option**

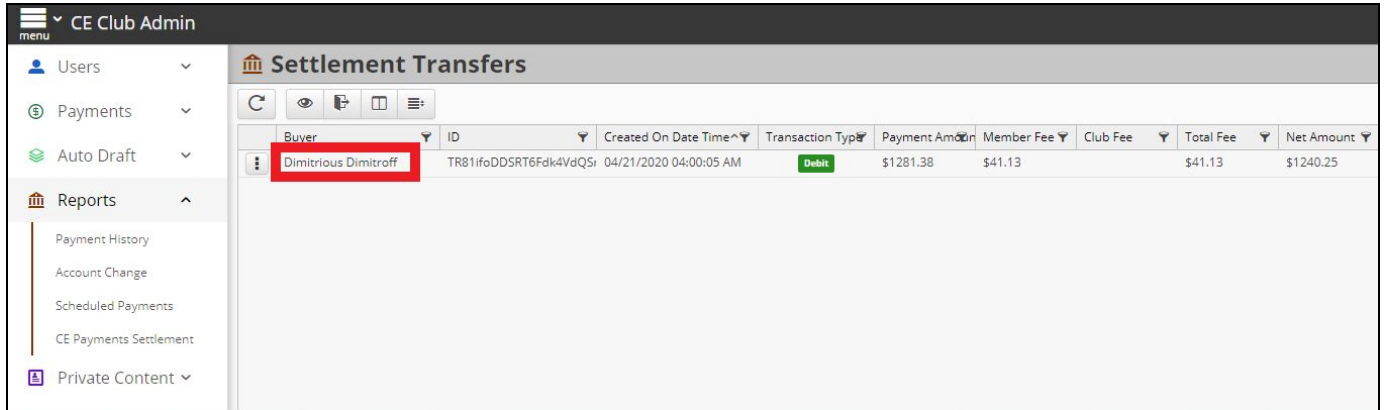

Use Case: Added a button to the CE Payments Settlement report that allows users to load more/older settlement results into the report.

The screenshot shows the "Settlement" report in the CE Club Admin interface. The report is a table with columns: Total Amount, Net Amount, Processor, Created On, Updated On, Transfer Count, Member Fees, Club Fees, Total Fees, and Funding Status. The table contains 15 rows of data. At the bottom of the table, there is a red-bordered button labeled "Load More Results". The interface also includes a sidebar with navigation options like Users, Payments, Auto Draft, Reports, Private Content, Modules, and System. The top right shows the user "Clubessential Admin" and a search bar. The bottom of the page shows the URL "https://acceptanceadmin.clubega.com/reports/settlementfunding/list# 4:13:58 PM" and "1-16 of 26".

Total Amount	Net Amount	Processor	Created On	Updated On	Transfer Count	Member Fees	Club Fees	Total Fees	Funding Status

- **Settlement Report - Member Name on View Transfers Grid**

Use Case: Member names can now be easily viewed in the “Buyer” column for each transfer that makes up a settlement in the CE Payments Settlement Report.

- **Settlement Report - Export Capability**

Use Case: Added the ability to export Settlement and Transfer grids

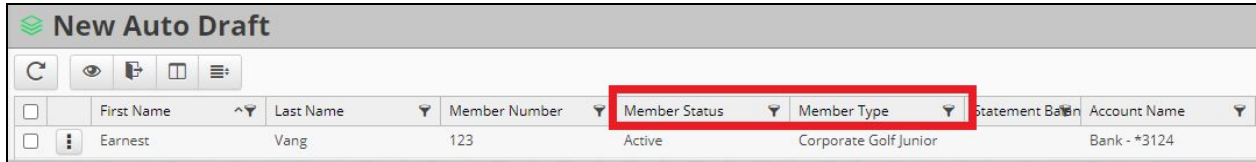

- **Settlement Report - Funding Status**

Use Case: Ensured the correct funding status is displayed when a particular settlement has multiple funding instructions attached. This can happen when the original funding instruction fails and is resubmitted, or when a settlement contains manual adjustments.

## Other PayCloud Enhancements

- **Auto Draft - Member Type & Status Columns**

Use Case: Added Member type and Member Status columns to the New Auto Draft grid. This grid can be filtered by these columns to quickly select all members of a particular Type/Status for payment drafting.

	First Name	Last Name	Member Number	Member Status	Member Type	Statement Balance	Account Name
<input type="checkbox"/>	Earnest	Vang	123	Active	Corporate Golf Junior		Bank - *3124

- **Member Payment History Page Improvements**

Use Case: Made some performance improvements to the Member facing Payment History page in PayCloud. This allows for faster loading speeds

## Bug Fixes

- Fixed an issue where double clicking Save and Close in “New Auto Draft” could create a duplicate batch
