

PayCloud v3.8 - 1.28.20 Release

Enhancements

- **Enhanced CE Payments reconciliation.**

Use Case: Enhanced existing payment reconciliation logic by adding a custom tag to credit card authorizations. Now, authorizations that fail or timeout during the authorization process or the following capture can be reconciled.

- **Added Statement Balance disclaimer message.**

Use Case: Added a disclaimer to various pages where a statement balance payment is an option. This will reflect the amount that can change based on changes to the Member's statement.
